

Clear SEO & High-Conversion Public Website Copy

Page-by-page implementation document

Public website only - Canada and United States

Purpose	Clear, publish-ready marketing copy organized by page and section.
SEO format	Every page includes URL, search intent, title tag, meta description, primary keyword, secondary keyword themes, and recommended schema.
Document style	Neutral black-and-gray document formatting. Brand colors are intentionally not used in this PDF.

Prepared from the approved GetContractorz Brand/Positioning/IA foundation and Public Website Design System. SEO keyword targeting has been kept within verified product capabilities; no unverified scheduling, dispatch, verification, guarantee, testimonial, rating, or statistics claims are added.

How to Use This Document

SEO SETUP: Implementation information for the page. This is not visible website copy.

VISIBLE PAGE COPY: Text intended to appear on the website. Each section is named and the H1/H2/CTA text is labeled clearly.

INTERNAL NOTE: Publishing, data, or legal guidance. Do not show this text to website visitors unless it is explicitly written as visible copy.

Sitewide Accuracy Rules

- Position GetContractorz primarily as service-business management software / a service-business management platform. The Marketplace is secondary.
- State that registration and platform access are currently free; do not promise that access will remain free forever.
- Do not call Marketplace businesses verified, screened, approved, vetted, certified, recommended, or guaranteed by GetContractorz.
- Do not publish invented testimonials, reviews, ratings, partner logos, platform statistics, lead counts, or performance guarantees.
- Do not claim scheduling, dispatch, route optimization, GPS tracking, accounting integrations, payment processing, online booking, or other unverified functionality.

SECTION 1 - HERO

Eyebrow:FOR SERVICE BUSINESSES

H1

KEEP YOUR SERVICE BUSINESS ORGANIZED IN ONE WORKSPACE.

Manage the operational work around your clients and jobs from one connected platform - including services, questionnaires, team members, quotes, assigned jobs, before-and-after images, invoices, payouts, and more.

Primary CTA:Get Started Free

Secondary CTA:Explore the Marketplace

CTA note:Registration and platform access are currently free.

SECTION 2 - ONE WORKSPACE FOR THE WORK BEHIND EVERY JOB

H2

LESS SCATTER. MORE CLARITY AROUND YOUR DAY-TO-DAY OPERATIONS.

Client details in one place. Service requirements somewhere else. Job photos in messages. Quotes and invoices in separate tools. As the work grows, keeping the full picture organized becomes harder.

GetContractorz brings the supported parts of your service workflow into one business workspace so you can manage the information around the job with more structure.

Supporting link:See How It Works

SECTION 3 - WHAT YOU CAN MANAGE

H2

BUILT AROUND REAL SERVICE-BUSINESS WORKFLOWS.

Card - Clients & Services

Add clients, manage your services, and create personalized services for the customers you work with.

Card - Questionnaires & Terms

Create service-specific questionnaires and terms and conditions so requirements are collected in a consistent way.

Card - Team & Assigned Jobs

Add team members, assign work, and give employees access to the jobs they are responsible for completing.

Card - Work Documentation

Keep before-and-after job images connected to the work instead of scattered across separate conversations.

Card - Quotes & Invoices

Create and send quotes, manage invoices, and keep those customer-facing records in the broader service workflow.

Card - Business & Payout Information

Manage business, banking, and credential information, review payouts, and access general business information and analytics in the dashboard.

Section CTA: Explore All Features

SECTION 4 - A CLEAR WORKFLOW FROM SETUP TO COMPLETED WORK

H2

FROM BUSINESS SETUP TO JOB DOCUMENTATION, KEEP THE PROCESS CONNECTED.

01 - Set up your business

Create your account, register your business, choose the service categories that apply, and configure your services.

02 - Add clients and your team

Create client records, add team members, and prepare the questionnaires and terms your services need.

03 - Create and assign client services

Create a personalized service, collect the client's questionnaire, review it, and activate the service when it is ready.

04 - Complete and manage the work

The assigned employee can complete the job and upload before-and-after images while the Manager handles related quotes, invoices, payouts, and business information.

Section CTA: See the Full Workflow

SECTION 5 - DIFFERENT ROLES. ONE CONNECTED SERVICE WORKFLOW.

H2

THE RIGHT VIEW FOR THE RIGHT ROLE.

Manager

Manage the complete business workspace: clients, services, team members, questionnaires, terms, quotes, assigned jobs, invoices, payouts, and business information.

Employee

View assigned jobs, complete the work, and upload before-and-after images for the jobs you are responsible for.

Client

Access relevant services, complete service questionnaires, follow email or magic-link actions, and view applicable quotes and invoices.

SECTION 6 - BUILT FOR SUPPORTED SERVICE BUSINESSES

H2

YOUR SERVICE CATEGORY MAY ALREADY FIT.

GetContractorz currently supports businesses across construction, cleaning, landscaping, plumbing, electrical, snow removal, HVAC, roofing, siding, handyman services, flooring, windows and doors, appliance repair, moving services, carpet cleaning, and pest control. The supported category set may expand over time.

Primary link:Explore Service Categories

Secondary link:Register Your Business

SECTION 7 - MARKETPLACE DISCOVERY IS SEPARATE FROM BUSINESS MANAGEMENT

H2

MANAGE YOUR BUSINESS. BE DISCOVERABLE IN THE MARKETPLACE.

GetContractorz's core product is the business workspace. The Marketplace is a separate public discovery layer where visitors can browse registered businesses, review public business information, and contact the business they choose directly.

Being listed does not mean GetContractorz has verified, approved, or endorsed the business, and Marketplace visibility does not guarantee leads or service outcomes.

CTA:Explore the Marketplace

SECTION 8 - TRUST & REASSURANCE

H2

CLEAR ABOUT WHAT GETCONTRACTORZ DOES - AND WHAT IT DOESN'T.

- **Currently free:** Business registration and platform access are currently free. A future subscription model may be introduced, but no future plans or prices are currently published.
- **No lead guarantee:** Marketplace visibility does not guarantee enquiries, leads, jobs, or business growth.
- **No provider verification:** GetContractorz does not currently independently verify business identity, licensing, credentials, insurance, employee backgrounds, or service quality.
- **Direct service relationship:** Marketplace visitors choose which business to contact, and service arrangements are handled directly between the visitor and that business.

SECTION 9 - SELECTED FAQ

Is GetContractorz free for service businesses?

Business registration and platform access are currently free. A subscription model may be introduced later, but no future plan, price, or billing promise is currently published.

What kinds of service businesses can use GetContractorz?

GetContractorz currently supports the service categories listed on the Service Categories page, including construction, cleaning, landscaping, plumbing, electrical, HVAC, roofing, moving services, pest control, and others.

Does GetContractorz verify businesses in the Marketplace?

No. GetContractorz does not currently independently verify business identity, licensing, credentials, insurance, employee backgrounds, service quality, or other business claims.

Does GetContractorz guarantee Marketplace leads?

No. The Marketplace provides public discovery and direct contact, but it does not guarantee enquiries, leads, responses, jobs, earnings, or business growth.

Can clients use GetContractorz too?

Yes. Clients invited by a registered business can access the parts of the platform relevant to their services, including questionnaires and applicable quotes and invoices.

What can employees do?

Employees can view and complete assigned jobs and upload before-and-after images as part of the job workflow.

SECTION 10 - FINAL CTA

H2

READY TO ORGANIZE YOUR SERVICE BUSINESS IN ONE WORKSPACE?

Create your account, register your business, and start setting up the services and workflows you use every day.

CTA:Get Started Free

CTA note:Registration and platform access are currently free.

For Service Businesses

Meta description	Manage clients, services, team members, questionnaires, jobs, quotes, invoices, and payouts from one organized service-business workspace.
Primary conversion	Get Started Free / Register Your Business
Recommended schema	BreadcrumbList

VISIBLE PAGE COPY

SECTION 1 - HERO

Eyebrow:FOR SERVICE BUSINESSES

H1

MANAGE THE WORK AROUND YOUR JOBS - WITHOUT THE SCATTER.

GetContractorz gives service-business owners and managers one organized workspace for clients, services, team members, requirements, job assignments, work images, quotes, invoices, payouts, and related business information.

CTA:Get Started Free

CTA note:Registration and platform access are currently free.

SECTION 2 - WHEN THE WORK IS ORGANIZED, THE BUSINESS IS EASIER TO SEE

H2

YOUR OPERATIONS SHOULD NOT DEPEND ON A PATCHWORK OF TOOLS.

A service job carries more information than the work itself. There are client details, service requirements, team responsibilities, images, quotes, invoices, and payment-related records to keep track of.

GetContractorz centralizes the supported parts of that workflow so the Manager can keep the operational picture connected in one place.

SECTION 3 - WHAT YOU CAN MANAGE

H2

ONE BUSINESS WORKSPACE. CLEAR RESPONSIBILITIES.

Client management

Create and manage client records so customer information stays connected to the services you provide.

Services

Configure your business services and create personalized services for individual clients.

Service questionnaires

Create service-specific questionnaires and collect the information you need from clients before work moves forward.

Terms and conditions

Create terms and conditions for your services so the relevant service information is organized alongside the workflow.

Team members

Add employees or team members and assign work to the people responsible for completing it.

Jobs and work images

Manage assigned jobs and review before-and-after images uploaded as part of completed work.

Quotes

Create and send quotes from the business workspace.

Invoices

Manage invoices connected to your customer workflow.

Payouts

Review payout information from the Manager workspace.

Business information and analytics

Manage profile, business, banking, and credential information and view general business information and analytics available in the dashboard.

SECTION 4 - BUILD A STRUCTURED CLIENT WORKFLOW

H2

COLLECT REQUIREMENTS BEFORE THE JOB MOVES FORWARD.

1. Add the client

Create the client's record. The client receives an email invitation to create or access their account.

2. Create the service

Create a personalized service for that client and connect the service to the questionnaire it requires.

3. Review the submission

The client receives a magic link, completes the questionnaire, and submits the required information. The Manager reviews the submission and activates the service.

4. Keep service information accessible

The client can access the relevant parts of the platform, including applicable services, quotes, and invoices.

SECTION 5 - KEEP TEAM RESPONSIBILITIES CONNECTED TO THE JOB

H2

ASSIGN THE WORK. DOCUMENT THE RESULT.

Managers can add team members and assign jobs. Employees have a focused role: they can view the jobs assigned to them, complete those jobs, and upload before-and-after images as part of the work record.

This keeps the employee workflow narrower than the full Manager workspace while still connecting field work back to the business process.

SECTION 6 - KEEP QUOTES, INVOICES, AND PAYOUT-RELATED WORK INSIDE THE BROADER WORKFLOW

H2

CUSTOMER-FACING RECORDS SHOULD NOT LIVE IN ISOLATION.

Create and send quotes, manage invoices, review payouts, and keep business and banking information connected to the broader operational workspace.

GetContractorz does not position itself as accounting software, a payment processor, or a replacement for any unverified financial system. Public copy should stay focused on the exact records and workflows available in the product.

SECTION 7 - BUILT FOR SUPPORTED SERVICE CATEGORIES

H2

IF YOU RUN A SUPPORTED SERVICE BUSINESS, GETCONTRACTORZ IS BUILT AROUND YOUR TYPE OF WORK.

Current categories include Construction, Cleaning, Landscaping, Plumbing, Electrical, Snow Removal, HVAC, Roofing, Siding, Handyman Services, Flooring, Windows & Doors, Appliance Repair, Moving Services, Carpet Cleaning, and Pest Control.

Link:View Supported Service Categories

SECTION 8 - KNOW WHAT "CURRENTLY FREE" MEANS

H2

START WITHOUT A CURRENT PLATFORM SUBSCRIPTION.

Business registration and platform access are currently free. GetContractorz plans to introduce a subscription model in the future, but no public plan structure, pricing, billing cycle, or transition terms are currently approved.

That means the website should say currently free, not free forever.

SECTION 9 - OBJECTION CARDS

Does Marketplace visibility guarantee leads?

No. A registered business may be publicly discoverable, but GetContractorz does not guarantee enquiries, leads, jobs, earnings, or growth.

Is every business manually approved?

No. There is currently no manual business-approval process. A user completes business registration and the account role changes to Manager.

Does GetContractorz verify my license or credentials?

No. GetContractorz does not currently independently verify business identity, licenses, credentials, insurance, or other business claims.

Will I be charged later?

A subscription model may be introduced in the future, but no plan, price, billing arrangement, or transition promise is currently published.

SECTION 10 - FAQ

How do I become a Manager?

Create an account, complete the business-registration form in the Business tab, and once the business is created your role changes from User to Manager.

Can I add more than one service category?

Managers select the applicable supported service category or categories during business setup and configure the services their business provides.

Can I create different questionnaires for different services?

Yes. Managers can create service-specific questionnaires.

Can I add my own team members?

Yes. Managers can add and manage team members and assign jobs to employees.

Can employees see the entire business workspace?

The verified employee role is narrower than the Manager role. Employees can view and complete assigned jobs and upload before-and-after images.

Can clients see quotes and invoices?

Clients can access relevant quotes and invoices depending on their assigned access and service status.

SECTION 11 - FINAL CTA

H2

PUT YOUR CLIENTS, SERVICES, TEAM, JOBS, AND BUSINESS RECORDS INTO ONE ORGANIZED WORKSPACE.

CTA:Get Started Free

CTA note:Create an account first, then register your business to access the Manager workspace.

Features

VISIBLE PAGE COPY

SECTION 1 - HERO

Eyebrow:FEATURES

H1

THE WORKFLOWS BEHIND YOUR SERVICE BUSINESS, ORGANIZED IN ONE PLACE.

Explore the verified GetContractorz capabilities available to Managers, Employees, and Clients - from client onboarding and service requirements to job documentation, quotes, invoices, and payouts.

CTA:Get Started Free

SECTION 2 - ANCHOR NAVIGATION LABELS

- Clients & Services
- Questionnaires & Terms
- Team & Jobs
- Work Images
- Quotes
- Invoices
- Business Information
- Payouts
- Dashboard Information

SECTION 3 - FEATURE - CLIENTS AND SERVICES

H2

KEEP CLIENTS AND THE SERVICES YOU PROVIDE CONNECTED.

Managers can add and manage clients, configure business services, and create personalized services for individual customers. This provides the foundation for the questionnaire, activation, job, quote, and invoice workflow around that client.

Role:Manager

SECTION 4 - FEATURE - SERVICE QUESTIONNAIRES AND TERMS

H2

COLLECT THE INFORMATION EACH SERVICE REQUIRES.

Create questionnaires for specific services instead of relying on the same generic intake for every job. Managers can also create terms and conditions for services, keeping both pieces inside the broader service workflow.

Role:Manager; Client submits questionnaire

SECTION 5 - FEATURE - TEAM MEMBERS AND ASSIGNED JOBS

H2

GIVE EMPLOYEES A CLEAR JOB TO COMPLETE.

Managers can add team members and assign jobs. Employees can view their assigned work and complete the jobs they are responsible for without being presented as full Manager users.

Role:Manager and Employee

SECTION 6 - FEATURE - BEFORE-AND-AFTER JOB IMAGES

H2

KEEP VISUAL JOB DOCUMENTATION WITH THE WORK.

Employees can upload before-and-after images when completing assigned jobs, and Managers can monitor those images as part of the job record.

Role:Employee uploads; Manager reviews

SECTION 7 - FEATURE - QUOTES

H2

CREATE AND SEND QUOTES FROM THE BUSINESS WORKSPACE.

Managers can create and send quotes, keeping quote activity connected to the broader customer and service process.

Role:Manager; relevant quote access for Client

SECTION 8 - FEATURE - INVOICES

H2

MANAGE INVOICES ALONGSIDE THE SERVICE WORKFLOW.

Managers can manage invoices, and Clients can access relevant invoices based on their service and account access.

Role:Manager and Client

SECTION 9 - FEATURE - BUSINESS, BANKING, AND CREDENTIAL INFORMATION

H2

KEEP CORE BUSINESS INFORMATION IN THE MANAGER WORKSPACE.

GETCONTRACTORZ - PUBLIC WEBSITE COPY

Managers can manage profile information, business information, banking information, and credential information. Public copy must not imply GetContractorz independently verifies business-supplied credentials.

Role:Manager

SECTION 10 - FEATURE - PAYOUT REVIEW

H2

REVIEW PAYOUT INFORMATION FROM THE SAME WORKSPACE.

Managers can review payouts as part of the business administration available in GetContractorz.

Role:Manager

SECTION 11 - FEATURE - GENERAL DASHBOARD INFORMATION AND ANALYTICS

H2

SEE THE BUSINESS INFORMATION AVAILABLE IN YOUR DASHBOARD.

The Manager dashboard provides general business information and analytics. Until the exact metrics and reporting definitions are approved for public use, do not advertise specific charts, forecasts, KPIs, or performance insights that have not been verified.

Role:Manager

SECTION 12 - FEATURE - CLIENT ACCESS

H2

GIVE CLIENTS A ROLE-SPECIFIC PLACE FOR THE INFORMATION THEY NEED.

Clients can access their dashboard, view services created for them, complete service questionnaires, follow service-related email and magic-link actions, and access relevant quotes and invoices.

Role:Client

SECTION 13 - FAQ

Is GetContractorz a CRM?

GetContractorz includes client-management functionality, but the platform is broader than a CRM. It also supports services, questionnaires, terms, team assignments, jobs, work images, quotes, invoices, payouts, and Marketplace visibility.

Does GetContractorz include scheduling and dispatch?

Scheduling and dispatch are not verified capabilities in the current public product foundation and should not be advertised as features.

Does GetContractorz integrate with accounting software?

No integration is currently approved for public marketing. Do not advertise accounting integrations unless they are separately verified.

Does GetContractorz have a mobile app?

Mobile-app functionality is not part of the verified public feature foundation. Public copy should not make a mobile-app claim unless the current product is separately confirmed.

SECTION 14 - FINAL CTA

H2

READY TO START USING THE WORKSPACE?

Create your account, register your business, and configure the services and workflows that apply to your operation.

CTA:Get Started Free

Recommended schema	BreadcrumbList

VISIBLE PAGE COPY

SECTION 1 - HERO

Eyebrow:HOW IT WORKS

H1

SEE HOW EACH ROLE MOVES THROUGH GETCONTRACTORZ.

GetContractorz connects several related workflows, but each role has a different job to do. Here is the standard flow for Managers, Clients, Employees, and Marketplace visitors.

CTA:Get Started Free

SECTION 2 - ROLE OVERVIEW

Manager - runs the complete business workspace.

Client - accesses service information and completes required actions.

Employee - views and completes assigned jobs.

Marketplace visitor - browses public business listings and contacts a chosen business directly.

SECTION 3 - BUSINESS SETUP AND MANAGER WORKFLOW

H2

FROM NEW ACCOUNT TO BUSINESS WORKSPACE.

1. Create your account

A newly registered account begins with the User role.

2. Register your business

Complete the business-registration form in the Business tab. Once the business is created, the account role changes to Manager.

3. Configure your services

Select the supported service category or categories that apply to your business and configure the services you provide.

4. Prepare your service workflow

Create service questionnaires and terms and conditions, then add clients and team members.

5. Run client and job workflows

Create personalized services, collect client questionnaires, activate services, assign employees, manage job completion, and handle related quotes, invoices, payouts, and business information.

SECTION 4 - CLIENT INVITATION AND QUESTIONNAIRE WORKFLOW

H2

FROM INVITATION TO ACTIVE SERVICE.

1. The Manager creates the client

The business creates a client record in GetContractorz.

2. The client receives an invitation

The client follows the email link to create or access the account.

3. The Manager creates a personalized service

The service is prepared for that client and connected to the required questionnaire.

4. The client completes the questionnaire

The client receives a service-related magic link, submits the questionnaire, and the Manager reviews it before changing the service from pending to active.

5. The client accesses relevant information

The client can access applicable services, quotes, and invoices based on their account and service status.

SECTION 5 - EMPLOYEE JOB WORKFLOW

H2

A FOCUSED WORKFLOW FOR THE PERSON COMPLETING THE JOB.

1. Receive assigned work

The Employee sees the jobs assigned by the Manager.

2. Complete the job

The Employee completes the assigned work through the available job flow.

3. Upload before-and-after images

The job can include visual documentation so the Manager can review the before-and-after work images.

SECTION 6 - QUOTES, INVOICES, PAYOUTS, AND REPORTING

H2

KEEP BUSINESS ADMINISTRATION CONNECTED TO THE OPERATIONAL RECORD.

Managers can create and send quotes, manage invoices, review payout information, manage business and banking information, and view general dashboard information and analytics.

SECTION 7 - MARKETPLACE VISITOR WORKFLOW

H2

DISCOVER A BUSINESS. CONTACT IT DIRECTLY.

1. Browse registered businesses

Use the Marketplace to explore real registered business listings.

2. Review public information

View the public details supplied for that business, including category and location information where available.

3. Choose who to contact

GetContractorz does not choose a provider for you. You decide which business you want to contact.

4. Arrange service directly

Communication, service terms, pricing, and the final service arrangement happen directly between you and the selected business.

SECTION 8 - FAQ

Does a business need manual approval before becoming a Manager?

No. There is currently no manual business-approval process. The user completes business registration and the role changes to Manager when the business is created.

Why does a client receive a magic link?

A magic link can be used as part of the service workflow so the client can access and complete the service questionnaire or relevant service action.

Who activates a client service?

The Manager reviews the submitted questionnaire and changes the service from pending to active.

Can an Employee manage the full business workspace?

The verified Employee role is limited to assigned-job activity and before-and-after image uploads. The complete business workspace belongs to the Manager role.

Does contacting a Marketplace business create an obligation?

GetContractorz itself does not create the service agreement. Any obligation depends on the terms agreed directly between the visitor and the selected business.

SECTION 9 - FINAL CTA

H2

READY TO SET UP YOUR BUSINESS WORKFLOW?

CTA:Get Started Free

For Clients

SEO SETUP

Recommended schema	BreadcrumbList

VISIBLE PAGE COPY

SECTION 1 - HERO

Eyebrow:FOR CLIENTS

H1

YOUR SERVICE INFORMATION, IN ONE CLEAR PLACE.

If a registered service business adds you as a client, GetContractorz may be used to help you access the information and actions connected to your service - including questionnaires and applicable quotes and invoices.

Primary CTA:Log In

Secondary CTA:Need Help? Contact Us

SECTION 2 - WHY DID I RECEIVE A GETCONTRACTORZ INVITATION?

H2

YOUR SERVICE BUSINESS USES GETCONTRACTORZ TO MANAGE PART OF ITS WORKFLOW.

A business Manager can create your client record and send an email invitation so you can create or access your GetContractorz account. That account gives you access to the parts of the platform relevant to your services.

Receiving an invitation does not mean GetContractorz employs, verifies, or guarantees the business providing your service.

SECTION 3 - WHAT CLIENTS CAN DO

H2

ACCESS THE INFORMATION THAT RELATES TO YOUR SERVICE.

View services

See services created for you when they are available in your account.

Complete questionnaires

Submit the service information the business requests through a service-specific questionnaire.

Use email and magic-link actions

Follow service-related links sent as part of the workflow.

Access quotes

View relevant quotes available to your account.

Access invoices

View relevant invoices available to your account.

SECTION 4 - HOW THE INVITATION AND QUESTIONNAIRE PROCESS WORKS

H2

FROM EMAIL INVITATION TO ACTIVE SERVICE.

1. The business creates your client record.

You receive an email invitation to create or access your account.

2. The business creates a service for you.

The Manager prepares a personalized service connected to the required questionnaire.

3. You receive a service-related magic link.

Use the link to complete and submit the questionnaire.

4. The business reviews your submission.

The Manager reviews the questionnaire and changes the service from pending to active.

5. You continue through the relevant client area.

Depending on your access and service status, you can view applicable services, quotes, and invoices.

SECTION 5 - TRUST & REASSURANCE

H2

WHAT GETCONTRACTORZ DOES - AND DOES NOT - DO.

GetContractorz provides the platform used by registered businesses and their clients. It does not independently verify the business, guarantee the quality or completion of its work, or become the service provider simply because the business uses the platform.

There is currently no GetContractorz platform fee for invited clients. Any service price, payment terms, or service agreement is handled with the service business.

SECTION 6 - CLIENT FAQ

Is my service provider employed by GetContractorz?

No. Marketplace businesses and businesses using the platform are not represented as GetContractorz employees.

Does GetContractorz verify my service provider?

No. GetContractorz does not currently independently verify business identity, licensing, credentials, insurance, employee backgrounds, service quality, or other business claims.

Does GetContractorz guarantee the work?

No. GetContractorz does not guarantee service quality, job completion, response times, or service satisfaction.

Do I pay GetContractorz to use my client account?

GETCONTRACTORZ - PUBLIC WEBSITE COPY

There is currently no GetContractorz platform fee for clients. Service pricing and payment arrangements are handled directly with the service business.

What if I received a link I do not recognize?

INTERNAL NOTE: Do not share account information. Use the Contact page to ask GetContractorz for help and contact the service business through a channel you already trust if you need to confirm the invitation.

SECTION 7 - CLOSING ACTION

H2

ALREADY HAVE AN ACCOUNT?

SECTION 1 - HERO

Eyebrow:SERVICE CATEGORIES

H1

BUILT FOR A RANGE OF SERVICE BUSINESSES.

GetContractorz currently supports the service categories below. The set may expand over time, so category names and counts should come from the live platform configuration rather than being hard-coded into marketing claims.

SECTION 2 - CATEGORY GRID

Construction

Organize client requirements, team responsibilities, job records, quotes, invoices, and before-and-after work documentation for construction-related service work.

Cleaning

Keep cleaning-service clients, service requirements, assigned jobs, team members, quotes, invoices, and work records organized in one workspace.

Landscaping

Manage landscaping clients, configured services, team assignments, job documentation, quotes, invoices, and related service information.

Plumbing

Organize plumbing clients, service details, questionnaires, assigned work, before-and-after images, quotes, invoices, and team workflows.

Electrical

Keep electrical-service client details, job requirements, employee assignments, work documentation, quotes, and invoices connected.

Snow Removal

Manage snow-removal clients, services, team assignments, work records, quotes, invoices, and related business information.

HVAC

Organize HVAC clients, service requirements, assigned jobs, employee work images, quotes, invoices, and service-related records.

Roofing

Keep roofing-service clients, requirements, team assignments, before-and-after images, quotes, invoices, and job information in one workspace.

Siding

Manage siding clients, service requirements, assigned work, team members, job images, quotes, and invoices through one business workspace.

Handyman Services

Organize multiple handyman service types, client requirements, team jobs, work documentation, quotes, invoices, and client records.

Flooring

Keep flooring client information, service requirements, job assignments, before-and-after images, quotes, and invoices organized.

Windows & Doors

Manage window-and-door service clients, requirements, assigned jobs, work documentation, quotes, and invoices in one connected workflow.

Appliance Repair

Organize appliance-repair clients, service information, job assignments, work images, quotes, invoices, and related records.

Moving Services

Keep moving-service clients, requirements, team assignments, quotes, invoices, and service-related information organized.

Carpet Cleaning

Manage carpet-cleaning clients, service requirements, assigned jobs, work documentation, quotes, and invoices in one workspace.

Pest Control

Organize pest-control clients, service information, team assignments, questionnaires, quotes, invoices, and job documentation.

SECTION 3 - TWO-AUDIENCE NEXT ACTIONS

H2

RUN A BUSINESS IN ONE OF THESE CATEGORIES?

Create your account, register your business, choose the categories that apply, and configure the services you provide.

SECTION 4 - CATEGORY-NOTE COPY

Supported categories may change as GetContractorz expands. Marketplace availability also depends on the registered businesses currently listed in each category and location.

Construction

SEO SETUP

URL	/service-categories/construction/
Search intent	High-intent category-specific commercial search
Primary keyword	construction business management software
Secondary keywords	contractor business software; construction CRM; construction job management software
SEO title	Construction Business Management Software GetContractorz
Meta description	Organize clients, service requirements, team jobs, work documentation, quotes, invoices, and related workflows for construction service work with GetContractorz.
Primary conversion	Get Started Free; secondary Marketplace CTA when real listings exist
Recommended schema	BreadcrumbList; add ItemList only when real Marketplace listings are shown

VISIBLE PAGE COPY

SECTION 1 - HERO

H1

ORGANIZE THE CLIENT, TEAM, JOB, AND BUSINESS RECORDS AROUND YOUR CONSTRUCTION SERVICE WORK.

Construction-related service work can involve detailed client requirements, multiple team members, work documentation, quotes, invoices, and business records. GetContractorz gives supported construction service businesses one workspace for organizing those workflows without presenting itself as full construction project-management software.

SECTION 2 - WHAT YOU CAN ORGANIZE WITH GETCONTRACTORZ

- Collect service-specific client requirements before work moves forward.
- Assign jobs to employees and keep before-and-after images connected to the work record.
- Create and send quotes and manage invoices alongside the client workflow.
- Manage business, banking, and credential information without implying GetContractorz verifies those credentials.

SECTION 3 - HOW THE WORKFLOW FITS

Create or register the business, configure the applicable service category and services, add clients and team members, use service-specific questionnaires and terms where needed, create personalized client services, assign work, document completed jobs with before-and-after images, and manage related quotes, invoices, payouts, and business information.

SECTION 4 - MARKETPLACE PATH

Visitors looking for construction providers can browse registered businesses in the Marketplace when real listings are available. They choose which business to contact, and the final service relationship is handled directly with that business.

Primary CTA:Get Started Free

Secondary CTA:Explore Businesses in This Category - show only when real Marketplace listings exist

INTERNAL GUIDANCE - SEO / ACCURACY GUARDRAIL

INTERNAL NOTE: Do not target "construction management software" as the primary exact-match term unless the product later supports the project-planning, budgeting, scheduling, document-control, and subcontractor expectations commonly associated with that category.

Cleaning

SEO SETUP

URL	/service-categories/cleaning/
Search intent	High-intent category-specific commercial search
Primary keyword	cleaning business management software
Secondary keywords	cleaning business software; cleaning CRM; janitorial business software
SEO title	Cleaning Business Management Software GetContractorz
Meta description	Organize clients, service requirements, team jobs, work documentation, quotes, invoices, and related workflows for cleaning service work with GetContractorz.
Primary conversion	Get Started Free; secondary Marketplace CTA when real listings exist
Recommended schema	BreadcrumbList; add ItemList only when real Marketplace listings are shown

VISIBLE PAGE COPY

SECTION 1 - HERO

H1

KEEP CLEANING CLIENTS, SERVICE REQUIREMENTS, TEAM JOBS, QUOTES, AND INVOICES ORGANIZED.

Cleaning businesses often repeat similar service types across many clients while still needing client-specific requirements, assigned staff, job records, quotes, and invoices. GetContractorz helps keep those supported records connected in one business workspace.

SECTION 2 - WHAT YOU CAN ORGANIZE WITH GETCONTRACTORZ

- Create cleaning services and service-specific questionnaires for the information each job requires.
- Add clients and create personalized services for recurring or individual customer needs without promising recurrence automation.
- Assign work to employees and document completed jobs with before-and-after images.
- Manage quotes, invoices, payouts, and business information from the Manager workspace.

SECTION 3 - HOW THE WORKFLOW FITS

Create or register the business, configure the applicable service category and services, add clients and team members, use service-specific questionnaires and terms where needed, create personalized client services, assign work, document completed jobs with before-and-after images, and manage related quotes, invoices, payouts, and business information.

SECTION 4 - MARKETPLACE PATH

Visitors looking for cleaning providers can browse registered businesses in the Marketplace when real listings are available. They choose which business to contact, and the final service relationship is handled directly with that business.

Primary CTA:Get Started Free

Secondary CTA:Explore Businesses in This Category - show only when real Marketplace listings exist

INTERNAL GUIDANCE - SEO / ACCURACY GUARDRAIL

INTERNAL NOTE: Do not claim route planning, recurring scheduling, time tracking, inspections, or mobile crew tracking unless those capabilities are separately verified.

Landscaping

SEO SETUP

URL	/service-categories/landscaping/

Primary keyword	landscaping business management software
Secondary keywords	landscaping business software; landscaping CRM; landscaping job management software
SEO title	Landscaping Business Management Software GetContractorz
Meta description	Organize clients, service requirements, team jobs, work documentation, quotes, invoices, and related workflows for landscaping service work with GetContractorz.
Primary conversion	Get Started Free; secondary Marketplace CTA when real listings exist
Recommended schema	BreadcrumbList; add ItemList only when real Marketplace listings are shown

VISIBLE PAGE COPY

SECTION 1 - HERO

H1

KEEP LANDSCAPING CLIENTS, SERVICES, CREW ASSIGNMENTS, JOB IMAGES, QUOTES, AND INVOICES CONNECTED.

Landscaping work combines client requirements, service details, team assignments, visual job records, quotes, and invoices. GetContractorz organizes those supported workflows in one workspace for landscaping service businesses.

SECTION 2 - WHAT YOU CAN ORGANIZE WITH GETCONTRACTORZ

- Configure the landscaping services your business provides and create client-specific services.
- Use questionnaires to collect relevant requirements before the service is activated.
- Assign jobs to team members and keep before-and-after images connected to completed work.
- Manage customer quotes, invoices, payouts, and broader business information.

SECTION 3 - HOW THE WORKFLOW FITS

Create or register the business, configure the applicable service category and services, add clients and team members, use service-specific questionnaires and terms where needed, create personalized client services, assign work, document completed jobs with before-and-after images, and manage related quotes, invoices, payouts, and business information.

SECTION 4 - MARKETPLACE PATH

Visitors looking for landscaping providers can browse registered businesses in the Marketplace when real listings are available. They choose which business to contact, and the final service relationship is handled directly with that business.

Primary CTA:Get Started Free

Secondary CTA:Explore Businesses in This Category - show only when real Marketplace listings exist

INTERNAL GUIDANCE - SEO / ACCURACY GUARDRAIL

INTERNAL NOTE: Do not advertise route optimization, recurring-route scheduling, weather automation, estimating, or time tracking unless verified.

Plumbing

SEO SETUP

Secondary keywords	plumbing business management software; plumbing CRM; plumbing job management software
SEO title	Plumbing Business Software for Client & Job Management GetContractorz
Meta description	Organize clients, service requirements, team jobs, work documentation, quotes, invoices, and related workflows for plumbing service work with GetContractorz.
Primary conversion	Get Started Free; secondary Marketplace CTA when real listings exist
Recommended schema	BreadcrumbList; add ItemList only when real Marketplace listings are shown

VISIBLE PAGE COPY

SECTION 1 - HERO

H1

ORGANIZE PLUMBING CLIENTS, SERVICE DETAILS, ASSIGNED JOBS, WORK IMAGES, QUOTES, AND INVOICES.

Plumbing service work moves quickly, but the information around each customer and job still needs structure. GetContractorz helps plumbing businesses organize supported client, service, team, job-documentation, quote, invoice, and payout workflows.

SECTION 2 - WHAT YOU CAN ORGANIZE WITH GETCONTRACTORZ

- Create client records and configure the plumbing services your business offers.
- Collect service requirements using questionnaires tied to specific services.
- Assign jobs to employees and document the work with before-and-after images.
- Create and send quotes and manage relevant invoices inside the broader client workflow.

SECTION 3 - HOW THE WORKFLOW FITS

Create or register the business, configure the applicable service category and services, add clients and team members, use service-specific questionnaires and terms where needed, create personalized client services, assign work, document completed jobs with before-and-after images, and manage related quotes, invoices, payouts, and business information.

SECTION 4 - MARKETPLACE PATH

Visitors looking for plumbing providers can browse registered businesses in the Marketplace when real listings are available. They choose which business to contact, and the final service relationship is handled directly with that business.

Primary CTA:Get Started Free

Secondary CTA:Explore Businesses in This Category - show only when real Marketplace listings exist

INTERNAL GUIDANCE - SEO / ACCURACY GUARDRAIL

INTERNAL NOTE: Do not claim dispatch, emergency-call routing, technician GPS, scheduling, pricebooks, or on-site payments unless verified.

Electrical

SEO SETUP

URL	/service-categories/electrical/
Search intent	High-intent category-specific commercial search
Primary keyword	electrical contractor business software
Secondary keywords	electrician business software; electrical contractor CRM; electrical job management software
SEO title	Electrical Contractor Business Software GetContractorz
Meta description	Organize clients, service requirements, team jobs, work documentation, quotes, invoices, and related workflows for electrical service work with GetContractorz.
Primary conversion	Get Started Free; secondary Marketplace CTA when real listings exist
Recommended schema	BreadcrumbList; add ItemList only when real Marketplace listings are shown

VISIBLE PAGE COPY

SECTION 1 - HERO

H1

KEEP ELECTRICAL CLIENTS, REQUIREMENTS, ASSIGNED WORK, JOB DOCUMENTATION, QUOTES, AND INVOICES ORGANIZED.

Electrical service businesses need a reliable way to keep customer information, service requirements, team responsibilities, visual work records, quotes, and invoices connected. GetContractorz provides one workspace for those verified workflows.

SECTION 2 - WHAT YOU CAN ORGANIZE WITH GETCONTRACTORZ

- Manage clients and the electrical services your business provides.
- Create service-specific questionnaires and terms and conditions.
- Assign work to employees and monitor before-and-after images.
- Manage quotes, invoices, payouts, and business information from the Manager role.

SECTION 3 - HOW THE WORKFLOW FITS

Create or register the business, configure the applicable service category and services, add clients and team members, use service-specific questionnaires and terms where needed, create personalized client services, assign work, document completed jobs with before-and-after images, and manage related quotes, invoices, payouts, and business information.

SECTION 4 - MARKETPLACE PATH

Visitors looking for electrical providers can browse registered businesses in the Marketplace when real listings are available. They choose which business to contact, and the final service relationship is handled directly with that business.

Primary CTA:Get Started Free

Secondary CTA:Explore Businesses in This Category - show only when real Marketplace listings exist

INTERNAL GUIDANCE - SEO / ACCURACY GUARDRAIL

INTERNAL NOTE: Do not advertise scheduling, dispatch, code-compliance verification, licensing verification, time tracking, or inventory management unless verified.

Snow Removal

SEO SETUP

URL	/service-categories/snow-removal/
Search intent	High-intent category-specific commercial search
Primary keyword	snow removal business software
Secondary keywords	snow removal management software; snow plow business software; snow removal CRM
SEO title	Snow Removal Business Software GetContractorz
Meta description	Organize clients, service requirements, team jobs, work documentation, quotes, invoices, and related workflows for snow removal service work with GetContractorz.
Primary conversion	Get Started Free; secondary Marketplace CTA when real listings exist
Recommended schema	BreadcrumbList; add ItemList only when real Marketplace listings are shown

VISIBLE PAGE COPY

SECTION 1 - HERO

H1

ORGANIZE SNOW-REMOVAL CLIENTS, SERVICES, TEAM JOBS, QUOTES, INVOICES, AND WORK RECORDS.

Snow-removal businesses need clear client records, defined services, assigned work, documentation, quotes, and invoices. GetContractorz helps organize those supported pieces without claiming dispatch, route, weather, or fleet features that are not verified.

SECTION 2 - WHAT YOU CAN ORGANIZE WITH GETCONTRACTORZ

- Configure snow-removal services and add the clients receiving them.
- Collect service requirements using service-specific questionnaires.
- Assign jobs to employees and keep work images with the job record where used.
- Manage quotes, invoices, payouts, and business records from one Manager workspace.

SECTION 3 - HOW THE WORKFLOW FITS

Create or register the business, configure the applicable service category and services, add clients and team members, use service-specific questionnaires and terms where needed, create personalized client services, assign work, document completed jobs with before-and-after images, and manage related quotes, invoices, payouts, and business information.

SECTION 4 - MARKETPLACE PATH

Visitors looking for snow removal providers can browse registered businesses in the Marketplace when real listings are available. They choose which business to contact, and the final service relationship is handled directly with that business.

Primary CTA:Get Started Free

Secondary CTA:Explore Businesses in This Category - show only when real Marketplace listings exist

INTERNAL GUIDANCE - SEO / ACCURACY GUARDRAIL

INTERNAL NOTE: Do not claim live weather alerts, route optimization, GPS fleet tracking, automatic dispatch, recurring storm scheduling, or salt/material tracking.

HVAC

SEO SETUP

URL	/service-categories/hvac/
Search intent	High-intent category-specific commercial search
Primary keyword	HVAC business management software
Secondary keywords	HVAC business software; HVAC contractor CRM; HVAC job management software
SEO title	HVAC Business Management Software GetContractorz
Meta description	Organize clients, service requirements, team jobs, work documentation, quotes, invoices, and related workflows for hvac service work with GetContractorz.
Primary conversion	Get Started Free; secondary Marketplace CTA when real listings exist
Recommended schema	BreadcrumbList; add ItemList only when real Marketplace listings are shown

VISIBLE PAGE COPY

SECTION 1 - HERO

H1

ORGANIZE HVAC CLIENTS, SERVICE REQUIREMENTS, JOB ASSIGNMENTS, WORK IMAGES, QUOTES, AND INVOICES.

HVAC businesses manage more than service calls: customer details, requirements, team assignments, work records, quotes, and invoices all need to stay connected. GetContractorz centralizes the supported parts of that workflow.

SECTION 2 - WHAT YOU CAN ORGANIZE WITH GETCONTRACTORZ

- Manage HVAC clients and configured services in the Manager workspace.
- Use service questionnaires to collect job-specific information from clients.
- Assign work to employees and retain before-and-after images with the job flow.
- Create quotes, manage invoices, review payouts, and maintain business information.

SECTION 3 - HOW THE WORKFLOW FITS

Create or register the business, configure the applicable service category and services, add clients and team members, use service-specific questionnaires and terms where needed, create personalized client services, assign work, document completed jobs with before-and-after images, and manage related quotes, invoices, payouts, and business information.

SECTION 4 - MARKETPLACE PATH

Visitors looking for hvac providers can browse registered businesses in the Marketplace when real listings are available. They choose which business to contact, and the final service relationship is handled directly with that business.

Primary CTA:Get Started Free

Secondary CTA:Explore Businesses in This Category - show only when real Marketplace listings exist

INTERNAL GUIDANCE - SEO / ACCURACY GUARDRAIL

INTERNAL NOTE: Field-service searchers often expect scheduling, dispatch, route optimization, maintenance agreements, equipment history, mobile tools, and payment processing. Do not claim those features unless the product supports them and they are approved.

Roofing

SEO SETUP

URL	/service-categories/roofing/
Search intent	High-intent category-specific commercial search
Primary keyword	roofing business software
Secondary keywords	roofing contractor software; roofing CRM; roofing job management software
SEO title	Roofing Business Software for Client & Job Management GetContractorz
Meta description	Organize clients, service requirements, team jobs, work documentation, quotes, invoices, and related workflows for roofing service work with GetContractorz.

VISIBLE PAGE COPY

SECTION 1 - HERO

H1

KEEP ROOFING CLIENTS, REQUIREMENTS, JOB ASSIGNMENTS, BEFORE-AND-AFTER IMAGES, QUOTES, AND INVOICES CONNECTED.

Roofing service work benefits from clear requirements and visual documentation. GetContractorz helps roofing businesses organize client information, service questionnaires, assigned jobs, before-and-after images, quotes, invoices, and related business records.

SECTION 2 - WHAT YOU CAN ORGANIZE WITH GETCONTRACTORZ

- Create personalized roofing services for clients and collect service requirements through questionnaires.
- Assign work to team members and keep visual job documentation with the record.
- Create and send quotes and manage invoices within the broader service workflow.
- Manage business, banking, credential, payout, and dashboard information as a Manager.

SECTION 3 - HOW THE WORKFLOW FITS

Create or register the business, configure the applicable service category and services, add clients and team members, use service-specific questionnaires and terms where needed, create personalized client services, assign work, document completed jobs with before-and-after images, and manage related quotes, invoices, payouts, and business information.

SECTION 1 - HERO

H1

KEEP MOVING CLIENTS, SERVICE REQUIREMENTS, TEAM ASSIGNMENTS, QUOTES, AND INVOICES ORGANIZED.

Moving-service businesses need client requirements, team responsibilities, quotes, invoices, and service information to stay connected around each move. GetContractorz helps organize those supported workflows in one business workspace.

SECTION 2 - WHAT YOU CAN ORGANIZE WITH GETCONTRACTORZ

- Create moving-service client records and personalized services.
- Collect service requirements through questionnaires before activating the service.
- Assign work to employees and keep job documentation connected where used.
- Create and send quotes, manage invoices, review payouts, and maintain business information.

SECTION 3 - HOW THE WORKFLOW FITS

Create or register the business, configure the applicable service category and services, add clients and team members, use service-specific questionnaires and terms where needed, create personalized client services, assign work, document completed jobs with before-and-after images, and manage related quotes, invoices, payouts, and business information.

SECTION 4 - MARKETPLACE PATH

Visitors looking for moving services providers can browse registered businesses in the Marketplace when real listings are available. They choose which business to contact, and the final service relationship is handled directly with that business.

Primary CTA:Get Started Free

Secondary CTA:Explore Businesses in This Category - show only when real Marketplace listings exist

INTERNAL GUIDANCE - SEO / ACCURACY GUARDRAIL

INTERNAL NOTE: Do not claim route planning, fleet tracking, inventory/item tracking, cubic-volume estimating, scheduling, or payment processing unless verified.

SECTION 1 - HERO

H1

ORGANIZE CARPET-CLEANING CLIENTS, REQUIREMENTS, ASSIGNED JOBS, WORK IMAGES, QUOTES, AND INVOICES.

Carpet-cleaning businesses need client information, service details, team assignments, visual job records, quotes, and invoices to stay organized. GetContractorz centralizes those verified workflows.

SECTION 2 - WHAT YOU CAN ORGANIZE WITH GETCONTRACTORZ

- Configure carpet-cleaning services and create personalized client services.
- Use questionnaires to collect service requirements before work is activated.
- Assign jobs to employees and keep before-and-after images with completed work.
- Manage quotes, invoices, payouts, and business information from the Manager workspace.

SECTION 3 - HOW THE WORKFLOW FITS

Create or register the business, configure the applicable service category and services, add clients and team members, use service-specific questionnaires and terms where needed, create personalized client services, assign work, document completed jobs with before-and-after images, and manage related quotes, invoices, payouts, and business information.

SECTION 4 - MARKETPLACE PATH

SECTION 1 - HERO

H1

ORGANIZE PEST-CONTROL CLIENTS, SERVICE INFORMATION, TEAM JOBS, QUESTIONNAIRES, QUOTES, AND INVOICES.

Pest-control businesses manage client information, service requirements, assigned work, documentation, quotes, and invoices across many service situations. GetContractorz helps keep the supported workflow connected in one business workspace.

SECTION 2 - WHAT YOU CAN ORGANIZE WITH GETCONTRACTORZ

- Configure pest-control services and create client-specific service records.
- Collect service requirements with questionnaires and keep service terms alongside the workflow.
- Assign jobs to employees and document completed work with before-and-after images where appropriate.
- Manage quotes, invoices, payouts, and business information from the Manager role.

SECTION 3 - HOW THE WORKFLOW FITS

Create or register the business, configure the applicable service category and services, add clients and team members, use service-specific questionnaires and terms where needed, create personalized client services, assign work, document completed jobs with before-and-after images, and manage related quotes, invoices, payouts, and business information.

VISIBLE PAGE COPY

SECTION 1 - HERO

Eyebrow:ABOUT GETCONTRACTORZ

H1

BUILT AROUND THE REAL WORK BEHIND SERVICE BUSINESSES.

The job itself is only one part of running a service business. Clients, requirements, team responsibilities, job documentation, quotes, invoices, payouts, and business information all need to stay organized around it.

GetContractorz is built to bring those supported workflows into one connected business workspace.

SECTION 2 - WHY THE PLATFORM EXISTS

H2

SERVICE OPERATIONS CAN BECOME FRAGMENTED FAST.

A client may begin in one system, service requirements in another, job photos in a message thread, and quotes or invoices somewhere else. The more disconnected the workflow becomes, the harder it is to understand what belongs to which client or job.

GetContractorz focuses on operational organization: bringing the supported client, service, team, job, documentation, quote, invoice, payout, and business-information workflows together.

SECTION 3 - WHAT GETCONTRACTORZ IS BUILDING AROUND

H2

A PLATFORM FOR SERVICE-BUSINESS OPERATIONS - WITH MARKETPLACE DISCOVERY AS A SEPARATE LAYER.

The business workspace is the core product. Registered service businesses use it to manage their operations.

The Marketplace is a complementary public layer that lets visitors discover registered businesses and access public contact information. The visitor chooses who to contact, and the service relationship remains between the visitor and the selected business.

SECTION 4 - PRODUCT PRINCIPLES

Clarity before hype

Explain what the product actually does. Do not replace missing proof with exaggerated claims.

Structured workflows

Keep client, service, team, job, quote, invoice, and related information connected where the product supports it.

Role-appropriate access

Managers, Employees, and Clients have different responsibilities and should not be described as if they use the same workspace.

Direct Marketplace relationships

Marketplace discovery supports direct contact without presenting GetContractorz as the provider, employer, verifier, or contracting party.

Accuracy as a trust signal

No fake testimonials. No invented statistics. No verification badges without verification. No guaranteed outcomes.

SECTION 5 - CURRENT MARKET

H2

CURRENTLY SERVING CANADA AND THE UNITED STATES.

Public geographic copy should remain at the country level unless real registered-business data supports a more specific state, province, metro, or city claim.

SECTION 6 - COMPANY-INFORMATION PLACEHOLDER

The current approved source material does not provide a publishable founding story, founder biographies, incorporation details, office locations, milestones, press, investors, or partnerships. Add those sections only when the facts are approved.

SECTION 7 - FINAL CTA

H2

WANT TO SEE IF GETCONTRACTORZ FITS YOUR SERVICE BUSINESS?

H1

STRAIGHT ANSWERS ABOUT GETCONTRACTORZ.

Find answers about business registration, features, Client and Employee roles, Marketplace discovery, current free access, and what GetContractorz does not guarantee.

SECTION 2 - PLATFORM BASICS

What is GetContractorz?

GetContractorz is a business-management platform for service businesses in Canada and the United States. It connects supported workflows around clients, services, team members, questionnaires, terms and conditions, quotes, assigned jobs, before-and-after images, invoices, business information, payouts, and Marketplace visibility.

Who is GetContractorz for?

The primary public audience is owners and managers of supported service businesses. The platform also has Employee and Client roles, while the public Marketplace is available to people browsing registered businesses.

Is GetContractorz just a contractor directory?

No. The core product is the service-business workspace. The Marketplace is a separate public discovery layer that complements the operations platform.

Where is GetContractorz available?

GetContractorz currently serves businesses in Canada and the United States. More specific geographic coverage should only be claimed when actual registered-business data supports it.

SECTION 3 - BUSINESS REGISTRATION AND PRICING

How do I register my business?

Create an account, complete the business-registration form in the Business tab, and when the business is created your account role changes from User to Manager.

Does GetContractorz manually approve every business?

No. There is currently no manual business-approval process.

Is GetContractorz free for businesses?

Business registration and platform access are currently free.

Will GetContractorz always be free?

A subscription model may be introduced in the future, but no plan structure, price, billing arrangement, or free-to-paid transition promise is currently published.

Is there a platform fee for clients or Marketplace visitors?

There is currently no GetContractorz platform fee for clients or Marketplace visitors. Any service price or payment arrangement is handled directly with the selected service business.

SECTION 4 - FEATURES AND WORKFLOWS

What can a Manager do?

Managers can manage profile, business, banking, and credential information; create service questionnaires and terms and conditions; add clients, services, and team members; create and send quotes; assign jobs; monitor before-and-after images; manage invoices; review payouts; and view general business information and analytics.

Can I create questionnaires for different services?

Yes. Managers can create service-specific questionnaires.

Can I create terms and conditions for services?

Yes. Managers can create service terms and conditions.

Can I add employees or team members?

Yes. Managers can add and manage team members and assign jobs.

What can Employees do?

Employees can view assigned jobs, complete assigned jobs, and upload before-and-after images as part of the job workflow.

Can GetContractorz manage quotes?

Yes. Managers can create and send quotes, and Clients can access relevant quotes depending on their access and service status.

Can GetContractorz manage invoices?

Yes. Managers can manage invoices, and Clients can access relevant invoices where applicable.

Does GetContractorz include scheduling, dispatch, route optimization, or GPS tracking?

Those capabilities are not verified in the current public product foundation and should not be advertised unless separately confirmed.

Does GetContractorz integrate with accounting or other software?

No integration is currently approved for public marketing. Only publish an integration after it has been verified and documented.

SECTION 5 - CLIENTS

Why did I receive a GetContractorz invitation?

A service business using GetContractorz may have created your client record so you can access the parts of the platform relevant to your services.

How does the client questionnaire work?

The Manager creates a personalized service and the Client receives a service-related magic link. The Client completes the questionnaire, and the Manager reviews the submission before activating the service.

What can Clients access?

Depending on their access and service status, Clients can access their dashboard, view services created for them, complete questionnaires, follow service-related email or magic-link actions, and access relevant quotes and invoices.

SECTION 6 - MARKETPLACE AND TRUST

What is the GetContractorz Marketplace?

The Marketplace is a public discovery layer where visitors can browse registered service businesses and access public business information and contact details.

Does GetContractorz choose a contractor for me?

No. Visitors decide which business they want to contact.

Does GetContractorz verify Marketplace businesses?

No. GetContractorz does not currently independently verify business identity, licensing, credentials, insurance, employee backgrounds, service quality, or other business claims.

Does GetContractorz guarantee the quality of a listed business?

No. GetContractorz does not guarantee business quality, job completion, response times, service satisfaction, or service outcomes.

Does contacting a business make GetContractorz part of the agreement?

No. Communication, pricing, terms, and the service arrangement are handled directly between the visitor and the selected business.

Does being listed guarantee leads?

No. Marketplace visibility does not guarantee enquiries, leads, jobs, earnings, savings, or business growth.

Are listings ranked as "best" or "top rated"?

No such ranking should be presented without objective, approved evidence. The current website should not use unsupported "best," "recommended," "verified," or rating claims.

SECTION 7 - PRIVACY AND SUPPORT

How does GetContractorz handle personal information?

The current Privacy Policy should explain how personal information is collected, used, stored, shared, and handled. Public marketing copy should not make security or privacy claims beyond the approved policy.

How can I contact GetContractorz?

Use the Contact page and the approved contact methods shown there.

PRIVACY POLICY

Last updated:{Approved date}

This Privacy Policy explains how GetContractorz handles personal information in connection with its public website, platform, accounts, Client and Employee workflows, and Marketplace.

INTERNAL GUIDANCE - REQUIRED LEGAL SECTIONS - FINAL WORDING MUST BE BASED ON ACTUAL DATA PRACTICES

1. Scope and who this policy applies to
2. Information collected directly from users
3. Information collected through account, business, Client, Employee, and Marketplace use
4. Information collected automatically through the website or platform
5. Purposes for using information
6. Service providers and other disclosures
7. Business-supplied Marketplace information and public visibility
8. Cookies, analytics, and tracking technologies actually in use
9. Data retention
10. Data security practices that can be factually stated
11. Cross-border processing, if applicable
12. User rights and choices under applicable Canadian and US laws
13. Children/minors, if applicable

14. Changes to the policy
15. Approved privacy contact information

INTERNAL GUIDANCE - PUBLICATION WARNING

INTERNAL NOTE: The current brand and product foundation does not contain enough verified information to draft a legally reliable full Privacy Policy. Do not publish generic boilerplate that describes technologies, retention periods, security controls, or disclosures that may not match the actual product. Final wording should be prepared or reviewed against current data practices and applicable law.

TERMS OF USE

Last updated:{Approved date}

These Terms of Use govern access to and use of GetContractorz's public website, platform, registered accounts, and Marketplace.

INTERNAL GUIDANCE - REQUIRED LEGAL SECTIONS - FINAL WORDING MUST BE LEGALLY REVIEWED

1. Acceptance of terms
2. Eligibility and account responsibilities
3. User, Manager, Employee, and Client roles
4. Business registration and business-supplied information
5. Acceptable use
6. Marketplace listing and direct-contact model
7. No independent verification of listed businesses
8. No guarantee of service quality, response, job completion, Marketplace leads, or outcomes
9. Relationship between GetContractorz, listed businesses, Clients, Employees, and Marketplace visitors
10. Service pricing and agreements handled directly with the selected business
11. Current free-access model and reservation of future commercial changes, if legally approved
12. Intellectual property
13. User-generated/business-supplied content
14. Suspension or termination

GETCONTRACTORZ - PUBLIC WEBSITE COPY

- 15. Disclaimers and limitation of liability
- 16. Indemnity, if applicable
- 17. Governing law and dispute terms based on the actual legal entity
- 18. Changes to terms
- 19. Approved legal/contact information

INTERNAL GUIDANCE - PUBLICATION WARNING

INTERNAL NOTE: The current source material does not provide the legal entity, governing law, dispute forum, liability language, content-license terms, termination process, or other information required for final legal terms. Do not treat this shell as legal advice or publish it as a complete agreement without review.

Cookie Policy

Search intent	Legal / navigational
Primary keyword	GetContractorz cookie policy
Secondary keywords	cookies; analytics; tracking technologies
SEO title	Cookie Policy GetContractorz
Meta description	Learn about cookies and similar technologies used by GetContractorz, if applicable to the current website and platform.
Primary conversion	None
Recommended schema	BreadcrumbList

VISIBLE PAGE COPY

Create this page only if the actual analytics, advertising, authentication, preference, or tracking implementation warrants a dedicated Cookie Policy.

COOKIE POLICY

This page explains the cookies and similar technologies GetContractorz actually uses, why they are used, how long they persist where applicable, which third parties set them, and what choices are available to users.

Do not list Google Analytics, advertising pixels, session cookies, consent tools, or other technologies unless they are actually present and verified.

Accessibility Statement

SEO SETUP

URL	/accessibility/
Search intent	Accessibility / support
Primary keyword	GetContractorz accessibility
Secondary keywords	website accessibility; accessibility statement
SEO title	Accessibility Statement GetContractorz
Meta description	Read GetContractorz accessibility information and find the approved channel for reporting an accessibility barrier.
Primary conversion	Report an accessibility issue through approved channel
Recommended schema	BreadcrumbList

VISIBLE PAGE COPY

Publish this page only when GetContractorz is ready to make an approved accessibility commitment and provide a real remediation/contact process.

ACCESSIBILITY STATEMENT

GetContractorz is working to provide a public website and platform experience that can be used by a broad range of people and assistive technologies.

The public design system targets WCAG 2.2 AA, but the final statement should describe **actual tested practices and commitments**, not convert a design target into a legal guarantee.

INTERNAL GUIDANCE - FINAL STATEMENT SHOULD INCLUDE

- Scope of the accessibility commitment
- Standards or guidelines actually followed
- Known limitations, if any
- Testing or review approach, if approved
- How users can report an accessibility barrier
- What information helps the team investigate the issue
- Approved response/remediation process without inventing a response-time SLA

Implementation Notes

SEO Use

- Use one semantic H1 per indexable page. H2s should match the section headings shown in this document unless design or wording needs a minor implementation adjustment.
- Keep the SEO title and meta description unique for every indexable page. Category and business-profile metadata must use real page-specific data.
- Use descriptive internal links between Home, For Service Businesses, Features, How It Works, Service Categories, Marketplace, FAQ, and relevant category/business pages.
- Do not index empty Marketplace filters, thin category/location pages, or business profiles that contain too little unique public information.
- Structured data must match visible, factual content. Do not add review or rating schema until real review data exists.
- The phrase field service management software can be used carefully as supporting semantic language, but GetContractorz should not imply unverified scheduling, dispatch, route optimization, GPS, or mobile technician features that users commonly expect from full FSM products.

Legal Page Status

Privacy Policy, Terms of Use, Cookie Policy, and Accessibility Statement are included as clear page shells because the approved source material does not contain enough legal-entity, data-processing, retention, security, governing-law, cookie, or remediation details to produce reliable final legal text. Complete those pages only after the missing facts are confirmed and reviewed.

Source Basis

This copy is grounded in the approved GetContractorz Public Website Brand, Positioning, Information Architecture & Copywriting Foundation and the GetContractorz Public Website Design System. External SEO review was used only to validate current search-intent language around service-business software and field-service software; product claims remain limited to verified GetContractorz functionality.
